

TOYCITY

TOY, GAME AND ENTERTAINMENT

The **Modern Rah Shatab** Industrial and Commercial Company began its activities in the field of games and toys in 2012. Our approach is to design and produce high-quality and useful products using the latest technologies in the world. This collection, known by the brand name **TOYCITY**, is currently recognized as one of the largest toy manufacturers in Iran and also as the largest producer of standard swimming pool balls at the national level. TOYCITY always pays attention to the authentic Iranian and Islamic culture as its main mission in producing useful intellectual and physical games and toys.

Key Human Resources

The most vital component of ToyCity is its human resources—specialized and skilled professionals in the fields of design, production, and sales of toys. These experts are actively engaged in various departments, including:

- Head Office
- Research and Development
- Production and Manufacturing
- Domestic Sales
- International Sales

Research and Development

This unit is responsible for investigating children's needs regarding toys and examining the primary concerns of parents. Ultimately, the outcomes of this research aim to produce toys that not only captivate visually—which is the foremost attribute of a toy—but also meet children's needs while addressing parental concerns.

Additionally, this unit is tasked with exploring the latest global technologies to develop products with these essential features. Continuous improvement in product quality, particularly in areas such as visual appeal and health standards—one of the main concerns for parents—stems from the research conducted within this unit. Key outcomes include the incorporation of nanotechnology in production, the creation of antibacterial products, and the use of edible colors.

Production Unit

The Production Unit, as the core of our organization, is responsible for implementing the results of the Research and Development Unit's findings. Utilizing state-of-the-art machinery and technology, we have automated the production process, quality control, packaging, and warehousing to minimize human intervention. Our products are manufactured according to global standards, ensuring the highest hygiene and quality criteria for consumers.

COUNTRIES COVERED BY EXPORTS

Marketing and Sales Unit

The Marketing and Sales Unit comprises teams specializing in consulting, commerce, and both domestic and international sales (exports). The consulting services provided by this unit include guidance on selecting play areas and toys for amusement parks, kindergartens, playgrounds, equipment centers, and distribution centers. Our export team has successfully commenced operations by exporting some of our products to neighboring countries. Due to the quality and diversity of our products, we aim to expand our reach to other countries.

Currently, our international sales and marketing team is engaged in collaboration and dialogue with several countries across South Asia, the Middle East, Eurasia, the CIS region, and Eastern Europe.
